I. What are cookies?

A cookie is information (a small text, image or software file) that is stored on websites, smartphones or other devices used to browse the Internet on websites you visit.

After a certain period of time, cookies are automatically deleted from your machine. This period depends on the type of cookies (the expiration date of a particular cookie can be viewed in the detailed settings of the browser).

When you visit the website from which the cookies were downloaded again, your internet browser sends cookies related to that website to the website operator. This allows the website operator to provide personalized information.

The information stored by cookies may include (but is not limited to): the websites visited by the visitor, the type of computer device used to visit the website, the details of the internet browser used by the visitor, the information provided by the visitor on the website; the visitor's IP address; advertisements viewed by the visitor, time spent on each subpage, browsing data, exits; and other data provided by the visitor to the given website (using cookies to avoid re-entering the information), etc.

II. Types of cookies

Technical cookies

These types of cookies help the website to function properly (for example: cookies for safe browsing, cookies for filling in forms, display settings for pages, they can be linked to a session, to facilitate use, for login security, etc.)

Cookies related to visitor behavior that collect statistics about your site

These cookies store anonymous data. They track the number of visits and pages viewed, the activity of website visitors, and the frequency of their return. They allow statistical analysis of website traffic. Through the information from cookies, we try to adjust the operation of our website to the habits of our visitors, and we also try to make it easier for visitors to find various sub-pages and information.

Cookies that can be used for tracking, personalized advertising

This type of cookie can be used to provide visitors and visitors to our website with personalized offers and advertisements tailored to their needs and interests.

Third-party cookies

Our website may also install cookies created by external service providers, which are used by external service providers for statistical measurements and personalized advertisements. Advertisements pointing to our website may also appear on other websites / services operated by our partners. We are not responsible for the details of the cookies used on these websites / services and the duration of their activity. You can find information about this in the data management information of the given partners.
